

Pipe temperature measurement sensor

Ref : 2811

Rev :

DESCRIPTION

This robust and easy-to-use sensor model is the ideal model for surface temperature measurements on pipes.

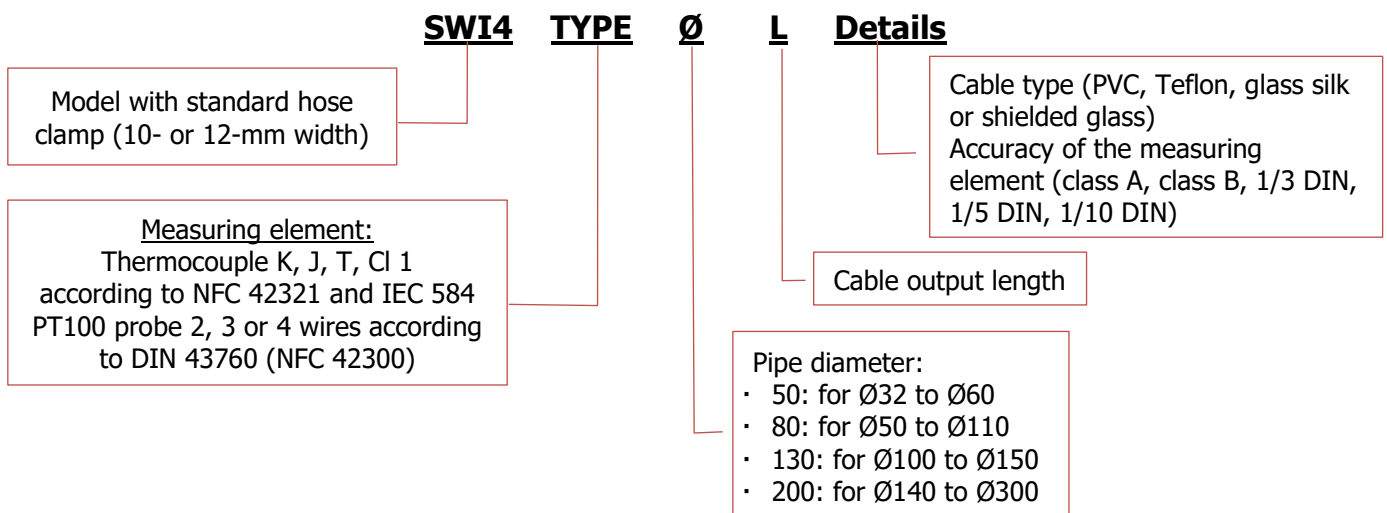

It is designed from a standard clamp on which MESUREX integrates a thermocouple or PT100 type measuring element. The element is encapsulated in order to be protected.

MESUREX is a sensor manufacturer. We can adapt most sensors to your needs. Please [contact us](#).

SPECIFICATIONS

Tolerance class	PT100 version: +/- 0.15°C to 0°C, +/-0.35°C to 100°C (class A) Thermocouple version K: +/- 1.5°C from -40°C to +375°C +/- 0.004 x T° 375°C to 1000°C
Tolerance	IEC 751 class 1/5 Din (other on request)
Operating temperature	PT100: -50 to +350°C (standard), Thermocouple T, K, J: -50 to +350°C
Options	4/20 mA output transmitter integrated into the industrial head (Reference: TR9-d-L-Type).
