

# MANO84 Series

*Digital pressure manometer*

Ref : 2853

Rev : B

## DESCRIPTION

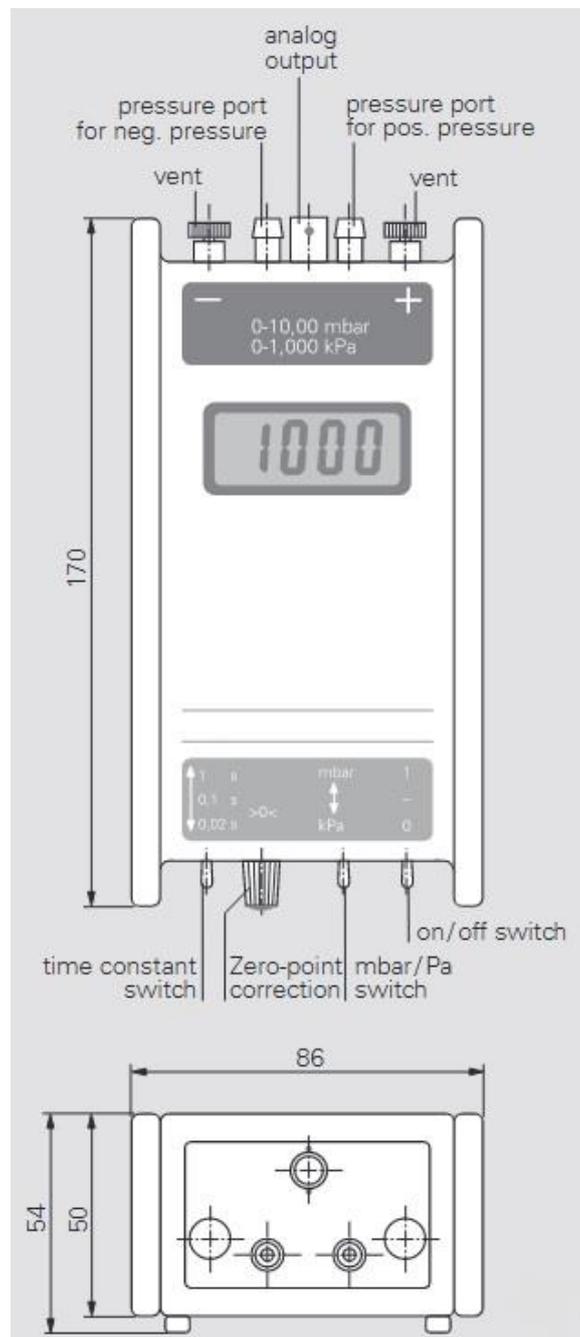

The MANO84 digital pressure gauge is a robust, easy-to-use and highly accurate portable device with long-term stability (very little temperature dependence). Equipped with an LCD and manual zero-point compensation (auto-zero), it allows measurements of positive and negative differential pressures. The MANO84 is the ideal device for HVAC unit maintenance work, where it can monitor filters or measure chimney drafts, etc. Its accuracy and reproducibility also make it ideally suited for use in laboratory applications.
