

TIMBRE TP series

Thermometer tape

Ref : 2332
Rev : A

DESCRIPTION

This low-cost sensor is used to quickly and easily determine the temperature threshold reached. It is a miniature self-adhesive strip with several temperature levels. Irreversible color change when the temperature threshold is crossed.

MEASURING RANGE

Type and level 1	Level 2	Level 3	Level 4
49	54	60	65
71	77	82	88
93	99	104	110
116	121	127	132
138	143	149	154

TECHNICAL CHARACTERISTICS

Number of temperature levels	4
Orientation	Circular / rectangular
Maximum sensitivity of the temperature	+154°C (type 138) example
Minimal sensitivity of the temperature	+49°C (type 49) example
Response time	<1s
Tightness	Water, oil, steam
Accuracy	±1°C (types 49 and 71) ±1% (type 93, 116 and 138)
Self-adhesive and unbreakable	

DIMENSIONS

Tag width	4mm according to model
Tag length	11mm according to model
